Having kept very quiet for the past three months, we crave your indulgence for a few moments, while we explain to our competitors where they are in danger of deviating from the truth. They say that "the REFLEX GRATE will not work after a few months." We can prove by dozens of persons who have used them for two and three years, that the Reflex Grate will out-wear two ordinary grates and still be in perfect working order. This is a fact, and to dispute it is more than anyone can do.

HOOD'S SARSAPARILLA.

When the blood is foul and thick in the spring disorders of various kinds manifest themselves, such as a feeling of general debility, a sense of weakness, a want of appetite, a languor and apathy, sometimes a weariness and lassitude. This condition, enervating and enfeebling, is wholly overcome by taking Hood's Sarsaparilla. It vitalizes and enriches the blood, invigorates the nervous system, tones and strengthens the digestive organs, and imparts new life and energy to all the organs of the body. Try it.

"I have never found anything that hit my wants as Hood's Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

As a Vitalizer.

"I write most of the time in an office, and often get overworked. Not having time to give up, I have taken Hood's Sarsaparilla as a vitalizer, and I am satisfied it has saved me from a fit of sickness several times. I take three bottles every spring, and find it pre-eminently superior as a spring tonic to anything I ever took. My boarding mistress says Hood's Sarsaparilla is a sure cure for sick headache, if sufferers give it a perfect trial." E. J. CHILSON, Somerville, Mass.

Superior on Fair Trial.

I regard Hood's Sarsaparilla as the most reliable and best spring medicine. I had tried many others without good results, and consequently condemned all alike, until I gave Hood's Sarsaparilla a fair trial, when I was convinced it was superior to all others. Every spring I take three bottles of Hood's Sarsaparilla and know nothing of that terrible languor so prevalent at that season of this year. I have just finished my first bottle for 1883, and already feel much improved. Mrs. J. M. CARTER, Boston.

Hood's Sarsaparilla

Combines the best remedies of the vegetable kingdom in such proportions as to derive their greatest medicinal effects with the least disturbance to the system. Its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood is so well balanced that it brings about a healthy action of the entire human organism that can be credited only by those who have seen the remarkable results that follow its use.

"We think Hood's Sarsaparilla one of the best medicines we ever sold for purifying the blood and for spring debility, and do not hesitate to give it our unqualified recommendation." GEO. C. GOODWIN & CO., Boston.

"I believe Hood's Sarsaparilla to be the best blood purifier in the market." L. J. CLEMENT, Warner, N. H.

"Hood's Sarsaparilla has worked wonders in the case of my wife, who was troubled with sick headache and biliousness. She is now entirely free from them." HOMER R. NASH, Pittsfield, Mass.

"Hood's Sarsaparilla cured me. I can eat anything without that awful distress, and have a tremendous appetite." PARK PATTEN, Gardiner.

Hood's Sarsaparilla.

Sold by druggists. $1, six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

The spring influences develop in your wearied and exhausted system an unnatural loathing for food and cheer. You may be sure your blood is in a low condition and needs cleansing.

Take a spring medicine now. Don't wait till your system is further reduced by spring weather, but get Hood's Sarsaparilla immediately.

Hood's Sarsaparilla sharpens the appetite, tones the stomach, invigorates the aged, and imparts new life and energy to all who take it.

A Lowell alderman says: "It's the strongest Sarsaparilla I ever saw." Try it. One hundred doses, $1.

"If people want a medicine to go all through 'em and wake 'em up, tell 'em to take Hood's Sarsaparilla." FREEMAN N. BIXBY, Meredith Village, N. H.

Purify the Blood.

A prominent business man remarks: "In the spring my wife got all run down and could not eat anything. I saw a pile of Hood's Sarsaparilla in the window of Hood's Apothecary, and I got a bottle. After taking it a week, she had a rousing appetite. She took three bottles, and it was the best three dollars I ever invested."

Remember this fact. You find in no other blood purifier or sarsaparilla the same combination of valuable medicinal agents as in Hood's Sarsaparilla.

That Tired Feeling.

There is no infirmity so oppressive and burdensome to the human mind as that tired feeling of which invalids complain on the approach of serious disorder. The depression and despondency of spirit attending this state are immeasurable. The lassitude, languor and debility peculiar to this condition are wholly overcome by taking Hood's Sarsaparilla. It purifies, vitalizes and enriches the blood, invigorates the nervous system, and imparts new life and energy to all the functions of the body.

"Hood's Sarsaparilla

Is a great blood medicine. I take it in the spring when I am weak and languid. It helps me more than anything else. For a low state of the blood nothing is better." Mrs. A. F. ATKINS, Lynn, Mass.

A lady tells us: "The first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure.

"I recommend Hood's Sarsaparilla for biliousness and all impurities of the blood. I eat spring I was benefited by it." Mrs. J. W. CLEMENT, Franklin, N. H.

"I consider Hood's Sarsaparilla one of the best medicines for spring, when the blood is in a low condition and needs cleansing. I have been benefited by it." W. H. CURTIS, R. R. Agent, Haverhill, Mass.

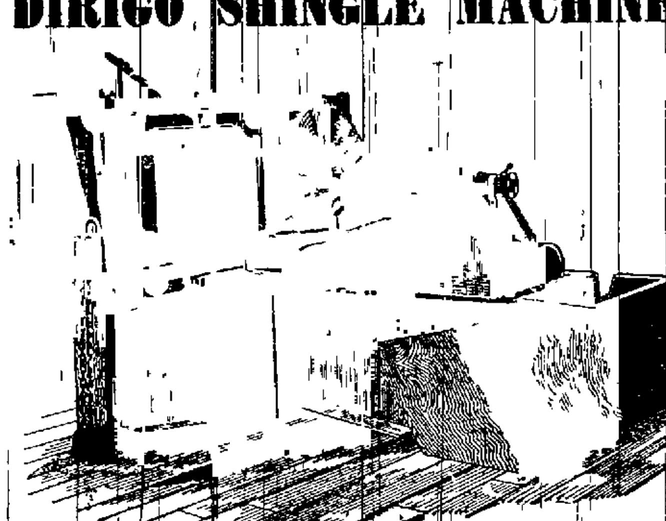

Take a spring medicine now. Try Hood's Sarsaparilla, the vitalizing effects of which render it the most effective spring medicine. No other Sarsaparilla has such a sharpening effect upon the appetite. No other preparation tones and strengthens the digestive organs like Hood's Sarsaparilla.

Hood's Sarsaparilla.

Sold by druggists. $1, six for $5.00. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Boston's big organ has been sold.

The reported strike of engineers on the "Nickel Plate" Railroad is denied.

A bill has passed the Wisconsin Assembly to imprison tramps for not less than six months nor more than a year.

Franklin Pierce's old home, in the outskirts of Concord, N. H., is to be transformed into a Protestant Episcopal school for girls.

A four year old fragment of humanity strayed into the kitchen washing day and then went up stairs and asked her mamma what Bridget was "cooking the clothes" for.

Within the past twelvemonth, four men have died, who, at one time or another, filled the office of Postmaster General, namely, Marshall Jewell, William Dennison, Horace Maynard and Timothy O. Howe.

Under the influence of a Christian Queen, who ascended the throne in 1868, Madagascar has rapidly progressed in civilization. There are now 800 ministers and teachers, and 700,000 children being instructed on the island.

Among the ladies of Vienna fencing is very fashionable. The belles of Paris also indulge in the exercise. So did the wives and daughters of the early settlers in New England, but they swung the axe more than they did the sword.

Gortschakoff was a great linguist and also a diplomatist. "How is it, Prince," he was once asked, "that you, who speak so many languages, were never known to divulge State secrets?" "It is because I know how to hold my tongue in six languages," was his reply.

In the post mortem examination of a man who died in one of the Vienna hospitals it was found that he had in his brain an iron nail covered with rust, that apparently must have been there from early childhood. He was about forty-five years of age and a bookbinder, and had been subject to epileptic attacks.

A bill has been introduced in the Illinois Legislature which provides that when a sleeping car passenger pays for a lower berth, and the upper is not occupied, the latter shall not be made up, where the passenger requests it. As it is now, a passenger occupying a lower berth is shut in by the upper, whether there is any one in it or not.

Edwin R. Harmon, a prominent citizen of Camillus, N. Y., died at the age of sixty, and was buried on Tuesday of last week. Mrs. Harmon, whose sister's body had been stolen some years ago, placed a private mark on her husband's grave. On Sunday morning she found this mark disturbed. The grave was opened, and it was found that the box outside of the coffin had been sawed through, the glass in the lid of the coffin broken, and the body dragged out. A search disclosed the body in the dissecting room of Syracuse University. The man who sold it there has disappeared.

An interesting relic of President Lincoln's family is now to be seen in an antique furniture store in Washington. It is a brass breech-loading cannon capable of throwing a two-ounce ball a mile, and was one of a pair made in the early days of the war, by Frederick, a well known gunner, as playthings for little "Tad" Lincoln. The other gun was an exact model of the famous Dahlgren gun, and was bought a few days ago by Mrs. Dahlgren, after Secretary Lincoln had identified it as having once belonged to "Tad." His mother, he says, would not allow "Tad" to use the dangerous toys, and finally gave them away to the furniture dealer.

Mr. James C. Flood, the "Bonanza King," has purchased for $100,000 a portion of the James Lick estate in San Francisco, and will erect some costly buildings thereon. This transaction will enable the trustees to carry out some more of the directions of Mr. Lick's will, and they will first devote $150,000 to erecting and maintaining free public baths in San Francisco. The remaining $250,000 will be used to discharge the following bequests: $25,000 to the Protestant Orphan Asylum, $25,000 for an Orphan Asylum at San Jose, $25,000 to the Ladies' Protective and Relief Society of San Francisco, $10,000 to the Mechanics' Institute of San Francisco, for the purchasing of scientific and mechanical works, $10,000 to the Society for the Prevention of Cruelty to Animals in San Francisco, which the testator "accompanied with the hope . . . that the trustees of said society may organize such a system as will result in establishing a similar society in every city and town in California, to the end that the rising generation may not witness or be impressed with such scenes of cruelty and brutality as constantly occur in this State." The further payment of $100,000 for an Old Ladies' Home will leave a balance of $65,000 which will be held until the remainder of the estate shall have been disposed of, when the following bequests will be paid: $60,000 for a bronze statue in Golden Gate Park of Francis Scott Key; $100,000 for a group of statuary allegorical of the history of California, for the San Francisco City Hall; and $540,000 to the California School of Mechanical Arts. The residuary legatees are the California Academy of Sciences and the Society of California Pioneers, both of which received valuable gifts from Mr. Lick before his death.

Mr. John Peck, who died recently near Paducah, Ky., was the father of seven sons and daughters. Just before his decease he called his youngest son to his bedside and told him that he had saved $1000 in gold for each of his children. He attempted to say where he had concealed it, but before he finished the grim messenger appeared and cut short his story. A search for the hidden treasure discovered two jugs with the neck knocked off, in which Mr. Peck had been accustomed to drop his savings. One was concealed in the smoke-house and the other in the stable. Together they were found to contain $3600 in gold. The rest cannot be found, though it is believed to be somewhere on the premises.

LATEST NOTES ABOUT THE FASHIONS.

[From the N. Y. Evening Post.]

Easter novelties fill shop windows.

The newest designs in bangle bracelets and lace pins are in Moorish and Renaissance devices.

Very long jersey gloves of cashmere or fine Austrian wool, devoid of buttons, come in all the dark street shades to match the costume.

A novelty in laces is the Pompadour pattern—a darned net, with a fine pearled edge and a raised figure in silk muslin, the designs in flowers, such as fuchsias, lilies of the valley, and other pendant flowers, are very effective.

Spring serges and basket-cloths are mostly in plaids, in even or irregular patterns, and in quiet, neutral tones of ecru, fawn color, and pale cinnamon, enlivened by dashes or intersecting hair lines of some bright color. Broken and fancy checks are more in use than the sheperd's plaid or "inch" blocks.

Tailor made costumes are growing more and more in favor. They have now arrived at perfection in the way of fit and finish. Some of the costliest of these have the bodice-lining of soft and pliable, but exceedingly firm ribbed silk. Promenade costumes, more suitable for carriage and visiting use, are now eschewed for these stylish and more appropriate suits of tweed, ladies' cloth, cheviot and flannel.

The Directoire, Marie Stuart, Queen Mab, Corday Cottage, and close French capote bonnets all reappear again this season, with slight modifications. Some of the new bonnets and round hats have the crowns oddly dented through the centre, and one unique head dress has a high peak oddly shaped on the left side of the brim, into which are set gay hued blossoms and leaves, making the bonnet, with its peak house front, look like a Gothic window adorned with flowers.

Black will be in high vogue for the two coming seasons, both in thick and thin materials, and many superb evening dresses are being made of this sombre hue, enlivened by a profusion of jet beads, gold trimmings or colored flowers. An immense quantity of lace will be worn as trimmings, and the magnificent bead garnitures—tabliers, panels, applique bands, bertbas, and fraises—become more and more elaborate, each new design being more intricate and beautiful than the last.

Bodices with crenelated edges are still in favor. The tabs are trimmed in many different ways—with braid-work, cordings of silk, and passementerie, or with embroidery or beaded applique ornaments placed in the centre of each block. Pointed bodices, very narrow at the sides, are much worn, with the overdress or tunic applied to the under side of the corsage, and not gauged to the outside as formerly. The round basque is cut with the centre seam opening over a shell pleating or a double pleat inserted in each seam.

Many of the rich dress fabrics, such as brocade, lampas, damask, brocatelle, with Louis XIV. designs, and satin brochés, with brilliant shaded flowers on dark contrasting grounds, are now being woven in patterns of nearly treble the usual width. This enables the court-train of handsome toilets to be made up without any seam, which is very desirable. These wide trains are arranged in various ways and fashion belongs to lay the skirt in very heavy pleats, which are set under the point of the bodice. The most elegant style, however, is to cut the back en princesse, with bodice and train in one. The least becoming to most figures is the fashionable manner of cutting the back à la Watteau, the heavy box pleat falling from the shoulders, this style requiring a certain stately carriage and a slender, graceful form.

Fine woolen dresses in dark monochrome colors, and tweeds, serges, and cheviots, with deep flounces edged with cross-way bands of velveteen of the best quality, are very fashionable. The flounces are put on with several rows of "grooved" shirrings. The back drapery is a blending of the two materials, and the jacket is of the woolen material, rounding in front over a jaunty waistcoat made of the velveteen, and laced up to the throat with fine silk cord, around a double row of tiny enamel buttons. Among the woollen most appropriate for utility purposes is Limousine cloth—a wear-defying fabric with dull brown and gray grounds, on which are bright stripes of cardinal and deep shades of gold and green. These goods are very serviceable and do not look much more worn at the end of the season than at the beginning of their career. They are a perfect boon to mothers with school girl daughters, who show no mercy to their "every-day" clothes.

For the brilliant entertainments following Easter have been imported and also prepared in our own city an array of as superb and artistic robes for fair dames and maidens as human mind could devise or human heart desire. There is almost an endless variety of magnificent materials employed in the formation of these costly toilets, the larger portion being of fabrics of the "stand-alone" order, such as will retain their richness and splendor for an indefinite period. The exquisitely made tulle and crepe dresses that Worth has successfully revived are, however, an exception to the general rule. They are as perishable as they are beautiful; still they are very much in vogue among extravagant young ladies who are content to pay almost any price for a dress, provided it is novel, becoming and uncommon. These youthful costumes, exquisitely delicate in tint, and frequently enriched with lace costing three times the value of the dress fabrics themselves, offer a refreshing and beautiful contrast to the heavy brocade and velvets beside them. As an instance of this pleasing contrast we describe two robes of the kind. One for the mother is a heavy satin of a delicate pearl gray, with a tint of palest pink in the sheen; this groundwork is overcast with a pattern of velvet moss, rosebuds, and foliage in their natural hues, a bit of vivid crimson showing from out the half-open buds. The court train is lined with crimson satin, and the petticoat is of heaviest Tyre satin of plain, pinkish-gray velvet, with a drapery of Venetian lace. For the daughter is a trained princesse slip of lilac faille completely covered with Persian gauze, silk tulle, edged with seven-inch frills of cream-white lace. The draperies are marvels of French manipulation and deft grace. Trailing garlands of blush roses and white clematis blossoms arranged among the shaping folds of tulle complete the effect of a most charming toilet. A pale blue satin, brocaded with silver flowers, and a white china crape, made up over white surah and embroidered with forget-me-nots and pink geranium blooms, were two other toilets placed in pleasing juxtaposition.

The wearing of feather pelerines at the opera and other full-dress entertainments is growing in popularity. Fans and bonnets are also made to match. These elegant accessories are always, of course, of a tint in keeping with the rest of the costume. A somewhat novel cape for day wear has also become popular, which is likely to supersede the few capes which have certainly had their day. These are of plush, of a shade matching the costume, thickly covered with pompons of a slightly darker color. Sometimes the capes have a bordering only of the pompons, formed by setting a triple row close to the edge of the cape.

Mandarin yellow is one of the leading shades of color this spring, in fact, all shades of yellow, from pale primrose to deep orange, will be fashionably worn, a rich yellow brown called bronze dore being especially admired. Costumes of this handsome shade in heavy ottoman silk, combined with golden brown satin brocade, form very elegant costumes designed for carriage and visiting wear. The vivid terra-cotta shades and still brighter color, known as crushed strawberry, so much in vogue of late, each so trying to the complexion and to every color with which they come in contrast, are rapidly giving place in public favor to a variety of paler shades, known as framboise, varying from the full ripe raspberry to the very palest creamy tint, called framboise ecrasece, or crushed raspberry. This shade is seen among new dress fabrics, and among vast quantities of hats and bonnets of chip and fancy straw.

STATE NEWS.

Androscoggin.

A Lewiston woman went into a store, Tuesday, and secreting several prayer books under her shawl went out. A call at her house and a thorough scare brought out the prayer books. She said she was sorry. The books were valued at $7.

Aroostook.

T. O. Stoddard had his right hand cut off in Grimes' mill, Washburn, last week.

A drunken fight took place at the house of Mrs. Mutch, in Littleton, on Monday evening last. A man by the name of Beardsley, stabbed one David Adams seven times with a knife. Adams is terribly cut up, but it is thought he will recover.

Cumberland.

At the school meeting held last week in the Burnham District, Bridgton, it was voted to build a new house, and $500 was raised to defray expenses of the same.

Franklin.

The Chronicle says Ed Woodman, of Farmington, has taken $2,035 for the sale of his own horses since the new year came in.

Hancock.

The American says, Mr. Stover Wilson, an aged and respected citizen of Penobscot, was found dead in his barn Tuesday night, the 20th inst. He had gone to feed his cattle for the night, and having remained longer than usual, his wife went out to search for him, and found him lying upon the floor with some hay in his arms, apparently in the act of feeding his cattle when life became extinct. To all appearance he was in his usual health up to the hour of his death.

Oxford.

The town of Oxford has voted $20,000 for the purpose of building a new iron bridge across the Little Androscoggin at Welchville.

Sagadahoc.

A calker employed in one of the north end yards, at Bath, on Monday got his finger under the thread of oakum he was laying in, and not perceiving it, struck a blow on his iron, which resulted in cutting off one of the fingers on his left hand.

Kennebec.

John Sawtelle, the oldest resident of Sidney, died Tuesday, aged 91 years. He was the oldest of ten children, all of whom have died except the youngest son, who now lives on the farm on which the children were all born. He was widely known in the early days of the temperance reform and has always manifested a great interest in its advancement. He was always a staunch Whig and when the Republican party was born he was in the front rank.

The Times says: The plans of the boilers for the two steamers to be built at the Goss Marine Iron Works, Bath, show a material difference from anything previously around here. On account of the coal burning freer and being so much soft er the fire has to be thinner and so a larger grate surface is utilized.

Somerset.

A daughter of the Rev. John Small of Wellington, aged about seven years, was so severely injured by her clothes taking fire on Wednesday of last week, that she lived only two days.

The Dexter Gazette says a large and very intelligent Newfoundland dog has been wandering about through Palmyra village during the past week, begging food and shelter and apparently asking for a home with almost human intelligence and ingenuity. When he is quite hungry he will approach a house, for the first time, bark at the door, and if the one answering his call bids him leave he will go away a short distance, pick up a chip or stick and immediately return and repeat his request, and so wistful will be look that he seldom fails to gain admittance and food. That dog deserves a home.

THE SHORE LINE RAILROAD.

We publish to-day the call for a public meeting to be held in City Hall, to-morrow, (Tuesday) afternoon, at 3 o'clock, to consider the important subject of the construction of a Shore Line Railroad from Bangor to Ellsworth and Sullivan and ultimately through the shore towns of Washington County to Calais. Col. J. N. Greene, the projector of the line, and the successful constructor of the Grand Southern Railway from St. John to Calais, will attend the meeting and give the assurance that a moderate amount of aid by citizens of Bangor will secure the speedy construction of the line from here to Sullivan. The estimated distance is thirty-seven miles, and with the assistance already pledged Col. Greene only asks of Bangor a contribution of fifteen thousand dollars, not a cent to be paid until he has a railroad line of standard gauge completed and running from this city to Sullivan, to the satisfaction of our Railroad Commissioners.

He has received liberal offers of aid from other points on the line, and with the guaranty desired from our people, he hopes to complete the line to Sullivan within the present year. He also proposes to extend the Grand Southern line three miles, crossing the St. Croix at Milltown so as to connect with the St. Croix and Penobscot line to Princeton.

The importance to Bangor of a railway connection with the extensive region lying East of us, has been so fully set forth in print and public discussion here in the past, that it should need no urging upon our wide awake people now. Such a line could not fail to be worth many times fifteen thousand dollars to many of our leading business houses within a very few years after its opening, and it would open a new, extensive and valuable field to all our business interests. The importance of the enterprise will undoubtedly attract a large attendance of the active and progressive men of Bangor, and we sincerely hope that this great project of an Eastern Shore Railway, which has been so long and earnestly desired by our sagacious business men, may soon be in process of accomplishment.

If the Democratic papers are an index of the sentiment of the party on the Speakership, Mr. Randall's chances are slim. So far as known he receives no support in the South or West, and in the East his friends mention his name in a way so timid that it reveals their want of confidence. His only chance at present seems to rest in the possibility of a contest between Carlisle and Blackburn. If the Democratic strength in the South and West is divided between these two men Randall may slip in between them as a compromise candidate. It is possible, however, that the small newspaper support Mr. Randall is receiving is no criterion of his strength. The combinations he has made and is making do not appear upon the surface. Then, too, it may be a part of his programme to keep in the background and allow his rivals to fight between themselves until their differences have become irreconcilable, when he can come in and possess the prize.

During the year 1882 the loss by fire in the United States was $81,505,024, and in Canada $5,605,940. In the eight years past, beginning with the record of 1875 the losses in the United States were $593,497,609, and in Canada $78,779,390, or the great total of $672,266,999.

The most expensive member of Congress, says the Chicago *Inter-Ocean*, is General Wheeler, of Alabama. It cost the government $1,440 to print, in the *Congressional Record*, four speeches which were never delivered by him.

The new Sloane Laboratory at Yale has now advanced so far towards completion as to make its architectural excellence conspicuous. It is 90 feet wide, 102 feet deep and 70 feet high, with a tower 30 feet higher than the main roof. The interior, admirably adapted to its purpose, will be finished during the summer, and the building will be ready for use next fall.

The *Tribune* of Saturday says: Mr. Salmi Morse was unmolested last night in producing his "Passion Play." What a farce it was to call the show a "dress rehearsal" is indicated by the fact that a good many peculiar people, who had been "invited," were turned away from the doors. The exhibition itself was in no way remarkable, but the audience manifested considerable enthusiasm. The crowd and the enthusiasm are not sure signs, however, that the play would be successful even if it were permitted to take place regularly. The performance last night was free. When it comes to paying for plain blasphemy, that will be another matter.

The cross-examination of Dorsey shows that the latter is very far from a frank and disingenuous witness. He is quicker witted on the stand than Brady was, and much sharper in his evasions. He quibbles at Merrick's questions, bandies words with him, and often very skillfully evades the issue. Dorsey last summer was threatened with total blindness. He has not fully recovered his sight, and this infirmity is performing an important part in the trial. Judge Wylie said to-day that it put the Government to a great disadvantage, as well as the defence. A curious thing about this blindness is that yesterday Dorsey thought he could show the line of a certain mail route in New Mexico if he had a map, yet to-day he could not see a line of the notorious letter which he wrote to the Arkansas Postmaster relative to straw bids.—*Wash. Cor. Boston Journal.*

There was an informal meeting in Concord, last week, of persons interested in preventing the further destruction of forests in the vicinity of the White and Franconia Mountains, in view of the great disfigurement of the county which is now going on in that section. Hon. Arthur L. Meserve, of Bartlett, of the Governor's Council, gave an account of the wholesale clearing of forest lands which had come under his personal observation and which is greatly damaging the natural scenery. Ex-Governor Harriman said that the subject demanded serious and immediate consideration, and advocated an appeal to the State to commence the purchase of land in the mountain section for the formation of a public park domain. Other gentlemen made remarks of a similar character, and at a future meeting a plan of organization will be reported.

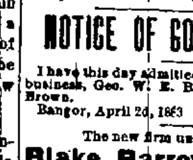

THE DOMINION GOVERNMENT.

In the House of Commons on Friday Sir Leonard Tilley, Minister of Finance, made a speech on the budget and congratulated the House on the excellent condition of the finances of the country. The receipts of the consolidated fund last year were $33,383,455, and the expenditures, $27,067,103. Besides this the receipts from Dominion lands were $1,744,456; making a surplus of over $8,000,000, or more than enough to pay the $7,351,083 spent on the capital account. The increase of deposits in the Government savings banks was $5,000,000, so that the Government was able to redeem the debt falling due and leaving a balance of $2,333,840, without troubling the money markets of the world. He explained the increased expenditure, which amounted to $1,500,000, but maintained that the benefits derived more than compensated for the outlay. There was an increased expenditure of $500,000 expected this year on railways over their estimated cost, that being the additional sum asked by the Minister of Railways. All this had been done, and the taxes had increased only to about one cent a head over that of 1877 and 1878, although $30,000,000 had been laid out in public works. The estimated revenue for the current year is as follows: Customs, $22,750,000; excise, $5,500,000; post office, $1,600,000; public works, including railways, $3,000,000; interest on investments, $800,000; other sources, $800,000; total, $34,450,000; expenditures, $28,650,000; surplus consolidated revenue fund, $6,000,000; proceeds from lands in the northwest, $1,750,000; savings bank deposits, $5,250,000; total, $13,000,000; probable expenditure on capital account this year $12,500,000; redemption debt, $7,000,000; total, $19,500,000. The expenditure this year will be probably $1,800,000 more than last year. He discussed the benefits which he said were derived from the National policy and which were exemplified in the large increase that the masses had deposited in the savings banks during the time since the inauguration of protection, and showed, at some length, that the operation of the fiscal policy of the Government had tended to secure for the people even a greater measure of prosperity than its promoters had anticipated.

A monster building is going up at Louisville, Ky., for the Southern exposition, which will be opened in that city, August first. Its area will be 677,400 square feet. Large annexes will be built. That the thirteen acres in the main building, with the additional gallery space and annexes already arranged for, will be inadequate is a fact becoming more obvious every day. The experience of all great exhibitions has been that exhibitors were slow to comprehend the magnitude of the undertaking, and that the applications for space were made in a very rapidly increasing ratio as the time for the opening approached. At Philadelphia, toward the opening day, applications were poured in so fast that thousands had to be refused, and indeed applications were presented to within a few weeks of the close. The opening of the Southern Exposition is distant more than four months, yet over four hundred applications for space for the most valuable and interesting exhibits that can be made have already been received. If ordinary experience holds good with the Southern Exposition, and applications continue from this time on to increase in the proportion that has always obtained in other great exhibitions, the space now contemplated will be altogether insufficient. The people of Louisville give ample financial support to the undertaking. Power, steam, water and all conveniences will be furnished exhibitors. Four lines of shafting will be run at a speed of two hundred per minute. Arrangements have been made for reduced fares from all parts of the country. Many of our Maine manufacturers visited the Atlanta exposition last year, and some of them will probably find their way to Louisville.

All Massachusetts is in a broad grin over the neat discomfiture of General Butler by State Senator Bruce. The report of the latter as chairman of the Judiciary Committee on the veto of the Somerville, Wharf and Improvement bill is pronounced the most stinging slap the Governor has received. The Boston *Journal* says that the report is "a merciless exposure of the disgusting demagogism of the Governor." The *Transcript* believes that "never was a pretender and adventurer in high place exposed with more effect." The opinion of the *Traveller* is that "there has not been a more clear-cut, incisive and dynamitic document spread before the public for some time." Even the Democratic *Post* joins in the general hilarity and calls it "roasting Butler." It is safe to predict that the Governor will take more care in writing his next veto message and not expose himself again to ridicule and laughter. One circumstance makes the castigation more severe than it would otherwise have been. Senator Bruce has been accused of being friendly to Butler, and he was charged with being the Governor's candidate for the Presidency of the Senate. How much Mr. Bruce enjoyed his triumph can be judged from the fact that he insisted upon his privilege of reading the report himself.

An exchange says: A most remarkable electrical phenomenon manifested itself on the line of the Union Pacific Railway, between North Platte and Sidney. The influence, however, was felt perceptibly beyond those points. The rails were surcharged with a current of electricity, moving from west to east, to so high a degree that hand cars standing on the track were impelled at a fair rate of speed by it. One hand car at Brule got away from the section men next east. The influence of the current was felt by many persons along the track, and no little excitement prevailed during its continuance.

SURVIVAL of the FITTEST!

When Darwin originated the above expression, he probably used it to demonstrate some fact in regard to the Gorilla's tail. We use it in connection with our tale of the

DONCOLA BOOTS,

we are agent for, to demonstrate that they still survive, and are the fittest boots for ladies' wear that can be found in Bangor. The fact that certain dealers try to palm off a boot with a similar name as our specialty, only goes to show that we have got a boot that leads them all. Remember that the genuine are stamped with the name inside; all others bear only the stamp of fraud.

To gentlemen who like a fine shoe we would call their attention to the

SHURTLEFF GOODS,

we are agents for. They are the most stylish, tony, nifty, nobby, natty, durable shoes in the market.

We have a few pairs left of the FERRIC ODYLINE INSOLES that we do not care to keep in the store during the summer months, they are such heat breeders, so, to dispose of them we will give one to each purchaser of $2 worth of goods. They have accidentally been found by Miss Parloa to be just the thing to turn the Spring edition of the flippant flapjack with.

Terrible Suffering.

Kidney and Bladder Complaints of Many Years Duration—His Word as Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many a herd, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said: "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Shore Line Railroad.

Public Meeting at City Hall

The undersigned, hitherto appointed a committee to urge the co-operation of the citizens of Bangor toward the construction of a Shore Line Railroad from this city into Hancock and Washington Counties, are assured by its projector that with the aid of our people that important enterprise may be speedily accomplished, and they therefore invite all citizens interested in establishing direct business connection with the extensive country lying east of us, to attend a public meeting

RUBBER

BELTING.

Important to all who use Belting.

We have just patented a new article in Rubber Belting which is sold under the name of

GIANT BELTING.

This Belting is put with the usual plies of Duck and Rubber, and, before putting on the outside cover, it is *stitched* in seams one inch apart, with cotton cord, which has a pulling strength of fifty pounds. It is then *stretched* in its plastic state, drawing the plies so close together that with the strong cord with which it is stitched, material strength is added to the belt, and the stitches are so drawn into the plastic rubber, that they cannot wear off on the outside. The outside cover is then put on *seamless*, so that it cannot open, as is the case of Rubber Belting made in the ordinary way, and the plies being so firmly stitched as well as frictioned together, that the belt cannot separate as many belts made in the ordinary way will, after being used for a time, especially when run at great speed or in damp places.

We particularly call the attention of all mill owners to the belt as being in the end the cheapest belt they can buy, while the first cost is only about ten per cent. more than belting made in the ordinary way. We believe it will wear more than double the length of time. For heavy main belts you will find it superior to anything made. It is also superior for *Endless Belts*, as we stitch the splice in such a way that it *cannot* come apart.

Try our Giant Belt. We will warrant satisfaction.

[illegible] "The Bankers' Association, of this city, offered $1,000 for his apprehension.

NEW YORK.

A Safe Robbed.

New York, April 1. The safe in the Academy of Music was robbed last night of $4,000 in checks and $2,900 in cash, the latter the proceeds of Dr. Damrosch's concert yesterday afternoon. Burglars' tools were found scattered about this morning, but the safe, it was found, had been opened with a key, which had been as usual secreted in a place known only to four persons. The police believe an employe committed the robbery.

Steamboat Explosion.

Louisville, Ky., April 1. A Columbus, Ky., despatch says: In the steamer Polar Star explosion four men were drowned and two killed. The pilot who was at the wheel is badly [illegible] on his body and bruised about the head. The cook had an arm badly hurt and the captain was thrown into the river, sustaining serious injuries. The captain received such a shock that he cannot talk intelligibly. The boat was owned by Captain Conrad, of St. Louis. She sank five minutes after the explosion.

Later.

The steamer Polar Star was a tug boat en route from St. Louis. She exploded her boilers while opposite Belmont, Mo., yesterday afternoon.

IN A TIGHT FIX.

A Young Lady Wedged Between Two Buildings.

New Haven, Conn., March 31. A singular accident occurred to-day in New Haven. The daughter of Mr. Diebel in making her toilet took three or four rings from her fingers and thoughtlessly left them in the wash bowl. A lady friend by accident threw the wash bowl, rings and all into a space between two buildings less than eleven inches wide. Nellie Maming, niece of Diebel, saw the rings glistening in the alley way and climed down to get them. The buildings are closer together at the bottom than at the top and the young lady found herself wedged fast. Assistance was procured and the young lady was rescued in a fainting, hysterical and exhausted condition. For a time she continued to scream, "Take me out. Oh, I tell you I'll die here." She is now doing as well as could be expected.

Lynchburg, April 1. A pelting hail storm prevailed here to-day, followed by heavy snow, which still continues, extending all through the southwestern section of the State to the Tennessee line. It has been storming incessantly in this section since yesterday morning.

FROM WASHINGTON.

General News.

Secretary Chandler to Accompany the President.

Washington, March 31. Secretary Chandler will accompany the President on his trip to Florida next week and make an inspection of the Pensacola navy yard.

The Claims of the Insurance Companies.

The claims filed by the insurance companies in the Court of Claims, against the United States for money which they assert is due them under the Geneva award, aggregate $2,086,263. These claims are presented for eight different companies. The petitions are in duplicate, one in the name of the receiver or assignee, and, the other in the name of the assured for the use of the receiver or assignee, about 600 petitions being required to cover all the claims. Five of these companies, whose claims amount to $1,476,871, are represented by John McDonald, of New York, who filed the last of the petitions this afternoon.

The undistributed balance of the Geneva award, amounting to $9,553,800, having been covered into the treasury by Secretary Sherman, March 31, 1877, the statute of limitation will, after to-day, bar the filing of any more claims of this character. It is generally believed that the Court of Claims will declare that it has no jurisdiction, in which event an appeal will be taken to the Supreme Court of the United States. The insurance companies do not consider the recent act of Congress, which re-established the Court of Commissioners of Alabama Claims, and defined the class of claims to be adjudicated as in any sense a judicial repudiation of their claims.

The claims of the New York companies, which are now insolvent or in liquidation in equity courts, instructed the receivers and assignees to prosecute their claims to a final judgment, regarding them as cases in action for which receivers, or assignees, were responsible in the settlement of their trusts.

Examining the Treasury.

Washington, April 1. The committee appointed to examine the cash in the U. S. Treasury and the accounts of the Treasurer began work after the close of business on Saturday by making an account of the teller's cash, and says that there need be no interference with the business of the office. The reserve vault was also sealed up preparatory to taking an inventory of its contents, as turned over by Mr. Gilfillan. It is thought the count will occupy two or three weeks. There has not been a thorough overhauling of the treasurer's office for ten years, the last full examination being the one made during Treasurer Spinner's time, when Spinner turned over the office to Treasurer New.

The latter was willing to accept the cash and accounts without examination and his bondsmen also being willing the Secretary of the Treasury dispensed with an examination. The same thing occurred when Treasurer Wyman succeeded Mr. New and when Mr. Gilfillan succeeded Mr. Wyman. The latter has expressed his willingness to forego an examination on the present occasion, but the Secretary thinks that so long a time has intervened since the last count one should be made. The committee will be assisted in the work by a force of 20 or 30 clerks detailed from offices other than the Treasurer's offices.

Accounts will be made of the old notes in the redemption division, the new notes in the reserve vault, silver and gold and the bonds held in trust. President Upton, of the committee, has decided that an actual count must be made in all cases. Packages of notes will be opened and counted as will also be the bags of gold and silver coin. He will personally assume charge of the work of comparing the cash on hand with the treasurer's accounts and with the accounts of the disbursing officers.

Diseased Cattle.

The Department of Agriculture has leased a piece of ground in the outskirts of the city to be used as an experimental farm and hospital in connection with the investigation of diseases of animals. Dr. D. E. Salmon, who for a number of years has been employed by the department in the investigation of diseases of cattle, swine and poultry will take charge of the work.

Notes.

The Post Office Department, to-day, upon recommendation of a special agent, revoked the order issued in January last, which placed on the list of fraudulent persons and firms the names of George S. Mayo and George I. Mayo & Co., of Chicago.

The reduction of the public debt for the month of March is estimated to be $9,500,000.

The Comptroller of Currency has authorized the First National Bank of Chamberlain, Dakota Territory, to begin business with a capital of $50,000.

J. C. New, Assistant Secretary of the Treasury, left here this afternoon for Indianapolis, Ind. He will be gone about a week.

CONNECTICUT.

Trinity College.

Hartford, April 1. The Trustees of Trinity College have elected Rev. Henry Ferguson, of New Hampshire, Professor of Political Science and History, and Rev. F. S. Luther, of Kenyon College, Ohio, Professor of Mathematics and Astronomy, vice Professor Hart, who takes the late Professorship.

MASSACHUSETTS.

A Fraud on the Public.

Lawrence, March 31. A number of tickets were sold for a gift concert to have been given to-night, but no license for the hall was granted, and it is claimed tickets were sold after this. A large crowd arrived at the hall to-night only to find it closed. The ticket agent of the show was arrested and the office of the City Marshal was filled to-night with a clamorous crowd demanding their money back.

The Irish Question.

Boston, April 1. Gov. Butler, Mayor Palmer, Hon. P. A. Collins, John Boyle O'Reilley, and a number of other citizens have invited Leander Richardson special correspondent in Ireland of Boston Herald, to address the people of this city giving an American view of the Irish problem. Richardson has accepted and will speak at Music Hall the 15th.

DEATH OF AGED RESIDENT.

Rev. Geo. Allen.

Worcester, Mass., April 1. Rev. Geo. Allen, Congregational minister, aged 91 years and 2 months, died here last night. He was a graduate of Yale, class of 1813, and author of the resolution of 1848 for free soil, freemen, free speech and a free land. He was a brother of the late Chief Justice Allen.

THE CROPS.

Sunday Reports.

Chicago, April 1. The Ohio Board of Agriculture states that the wheat crop is 70 per cent. or under compared with the prospect at the same time last year. The Illinois Department of Agriculture says: The crops have been injured in some localities by the freezing dry weather. The commissioners of agriculture of Kentucky state that the crop of winter wheat will be 10 per cent. below last year, which was 20 per cent. larger than any ever grown in the State.

The County Treasurer of Butler county, Cal., a part of the State not visited by the recent rains, estimates the crop is damaged 75 per cent. Last year this county raised $700,000.

RESCUERS RESCUED.

The Diamond Mine Disaster.

Braidwood, Ills., April 1. There was great excitement at the Diamond mine this afternoon when it was reported that the party who went down to recover the bodies of the victims in the recent disaster were imprisoned in the mine. A rescuing party was sent down who succeeded in removing a large quantity of rock and earth and thus releasing the party, some in an exhausted condition. The men who were down to-day declare they will never enter the mine again and the search for the remaining dead will have to be abandoned.

A BOLD OUTRAGE.

Knocked Down and Robbed of $600.

Boston, April 1. Three men entered the store of Edward F. Crane, of Leverett street, while he was making up his accounts at about midnight last night. They locked the door behind them, knocked Crane down, robbed him of $600 and escaped.

THE INDIANS.

Continuation of Outrages.

Tucson, Arizona, March 31. The White Mountain tribes openly declare they will go on the war path this noon. Unless definite action is taken by the government it is feared the organized body of citizens from Clifton, Globe and Tombstone will take matters into their own hands. The Carlos Reservation people are waiting to give Gen. Crook an opportunity to act. Twenty-seven people have been killed in nine days. At Hermosillo, Mexico, thirty-two people have been killed in nine days. The hostiles are moving towards Arizona through the settled region.

It is reported that Capt. Dougherty, who is scouting the country between Dragoon Summit and Sulphur Springs Valley, has orders from Gen. Crook to take no Indians prisoners. J. H. Carroll, of Gila Valley, was surrounded by a large band of Indians north of Carlisle, last night, but escaped into Richmond.

REMARKABLE SCENE AT A FUNERAL.

The Minister Denounces Secret Societies, of Which Deceased was a Member, and is Requested to Discontinue His Remarks.

Washington, April 1. Rev. Jonathan Blanchard, President of Wheaton College, in Illinois, in preaching a funeral sermon here to-day, over the remains of a young man who, in life, had been a prominent member of the Grand Army of the Republic, Knights of Pythias and Independent Order of Mechanics, made some remark denunciatory of secret societies. A sister of the deceased, who was present in the church where the services were being held, became very much excited over the language of the preacher especially for the reason that at the request of the family the societies of which her brother had been a member were conducting the funeral with society honors.

She fainted and had to be carried from the church. Amid some excitement her husband asked the clergyman to discontinue his remarks. This the latter refused to do unless requested by the father of the deceased who had first asked him to officiate. The father of the dead man told him he had "better quit," when, gathering up his manuscript he left the church. After some delay another clergyman was found to officiate and the services were concluded without further interruption. The occurrence has caused some excitement among the members of the societies assailed.

WHERE DID IT GO?

Nine Thousand Dollars Abstracted From the Custom House.

New York, March 31. The Tribune, to-morrow, will publish a story of which the following is a synopsis: On the 12th inst. $9,000 in gold certificates were abstracted from the cash room of the Custom House. During business hours over $600,000 were paid in duties that day and when the money came to be counted for deposit in the Sub-Treasury, at the close of the day's account, it was short $9,000 in gold certificates.

The money was handled by six different persons, but the loss occurred in what is called the "bill cage." There were only three men in the latter on that day. It is possible to have been the result of an error in count, but that is hardly regarded as probable. President Arthur and Secretary Folger authorized Collector Robertson to make a thorough investigation, which is now underway. While President Arthur was Collector he lost $5,000 in the same manner and Collector Merrill, during his term of office lost $14,000.

THE CARLETON MURDER.

The freight train due in this city from the west at 3 A. M. Sunday, met with a slight accident between Carmel and this city. The cause of the trouble was a broken wheel. Not much damage was done and the train finally proceeded on its way, reaching this city somewhat late.

Mr. Andrews' juvenile class in dancing numbers eighty-four, and a very attractive exhibition may be expected when these young misses and masters are seen on the Opera House stage in the various terpsichorean evolutions. Some new and very fascinating dances are promised for this occasion.

No Blame Attached to any One. A coroner's inquest was held Saturday afternoon over the remains of Everett L. Garland who was killed at the Maine Central yard Saturday morning. A verdict was given that the aforesaid came to his death by accident, no blame being attached to any one.

Lieut. McLellan, of Brunswick, of the U. S. Revenue Marine Corps, now on duty at Toms River, N. J., detailed to the Life Saving Service, has been detached and ordered to London in charge of the life-saving exhibit which our government sends to the World's International Fishery Exhibition.

The Last Sad Rites. The funeral services of Mrs. Elizabeth Skinner were held at the Old Ladies' Home on Saturday forenoon, conducted by Rev. G. W. Field. Three appropriate hymns were sung by Mrs. E. F. Roberts, Mrs. Wallace and Messrs. G. W. Merrill and E. F. Duren. Hon. J. S. Wheelwright had charge of the service.

Y. M. C. A. Mr. Millis, a member of the Dublin, Ireland, Young Men's Christian Association, was present at the Song Service held yesterday afternoon in the Association hall, and delivered a very interesting and forcible address. The quarterly business meeting of the Association will take place in their rooms to-morrow (Tuesday) evening, at a quarter of eight o'clock; at the close a social will be held. The public are invited.

Personal. Mr. William L. Miller, formerly of Ontario, and for the past three years one of the operators in the Western Union Telegraph office in this city, has resigned his position in that office and will connect himself with the well known firm of Rice & Skinner. During his connection with the telegraph company Mr. Miller was employed for a part of the night on the telegraph report for the Whig, thus being brought into intimate relations with the writer, who has ever found him an efficient operator and courteous gentleman, and while we shall miss his pleasant greeting in the office we congratulate him on the fine business opening before him.

Mr. T. W. Baldwin and F. H. Coombs have formed a copartnership under the firm name of Baldwin & Coombs to conduct the business of surveying and civil engineering. Miss Fanny C. Berry, the accomplished organist at the Hammond street church, has returned to this city and filled her position yesterday, the first time for four months. During this time she has been pursuing her musical studies in Boston, with very marked success. In her absence Miss May French has presided at the organ in a very acceptable manner. Miss French is a pupil of Mrs. H. L. Jewell, is an apt scholar and has a bright musical future before her.

Mount Kineo. Messrs. O. A. Dennen, of Mount Kineo, J. H. Eveleth, of Greenville, and J. L. Chenery, of Boston, proprietors of the property at Mount Kineo, were at the Bangor House on Saturday in consultation with the architect, Mr. A. H. Vinal, concerning the new hotel to be reared at Kineo during the present season. It has been determined to form a stock company which will embrace capitalists of Maine and Massachusetts. Mount Kineo has in the past enjoyed great popularity and in the future it will probably be greatly enhanced.

A Question of Birthplace. Turner and Livermore are both rival claimants to the honor of having been the birthplace of the late Postmaster General Howe. This is the version of Dr. Quinby, in the *Gospel Banner*: "He was born, not in Livermore, as is stated, but in the north part of Turner, which borders on Livermore. We knew him well in our younger days, when the settled pastor of Livermore parish, and his father, Dr. Howe, and all the family. They were all Universalists, one a clergyman in our denomination. Timothy was educated at Kent's Hill and married the second daughter of F. E. Haines, Esq., of East Livermore. He was a man of pure morals, undeviating integrity, and high and noble resolves, and his entire life reflects honor not only upon himself and immediate family, but upon his native town and State and all his early associates.

A Tribute to the Woodbury. Our Castine correspondent writes: The revenue steamer Woodbury arrived at Castine from a cruise on the 31st. This vessel, which has done such timely and valuable service on her cruising ground during the past winter has now finished her term of winter cruising and will shortly go into dock for needed overhauling. Never before has the service of one of our revenue vessels been so highly appreciated as during the past three months. Some of our harbors would have been closed entirely and deprived of steam communication if she had not opened them. Capt. Abbey, in the faithful and energetic performance of his duty, has well earned the praise which has so often been accorded to him, and receives the heartiest thanks of the people of these towns whom he has so greatly relieved and benefitted.

Winn Jottings. Our correspondent Nopen writes: The shop of Geo. Gould, shoemaker, being built by Lore C. Gordon is almost completed. It will be a larger building than the one he previously occupied.——Daniel Mishoe has removed a house or rather the frame of one from Woodville Plantation to near by the Catholic church, Winn.——Vast quantities of telegraph poles have been and are being daily hauled to Winn depot from Lee and that direction.——The few warm days of late have quite perceptibly affected the snow, especially in the woods.——Moses D. Weymouth is putting an addition to the back part of his store for groceries, etc.——Bark haulers have practically closed hauling.——I understand the Catholic exhibition of the 26th inst. was a success.——Ambrose Dennis is about to commence the erection of a hardware store, partly on the site of his former store and partly on that of the Weymouth or Smith store.

The Steamer City of Bangor. A stock company with a capital of $20,000 has been formed by some of the leading business men of New Hampshire under the name of the "Portsmouth & York Harbor S. S. Co.," and has purchased recently of the South Shore S. S. Co. of Massachusetts, the City of Bangor, and will place her upon regular running time between Portsmouth and York Harbor and Concordville some time early in June. This boat has been plying between Boston and Portsmouth and Boston and Provincetown, and other points on Massachusetts Bay since her departure some years since from the Penobscot. Considerable money will be expended in renovating her, and under the supervision of Capt. Beaumont she will be newly painted throughout, upholstered in plush and adorned with handsome mirrors. On Friday last she was piloted from Boston to Portsmouth, having a party of prominent gentlemen on board.

Temperance. Extra seats were required to accommodate the large attendance upon the Reform Club total abstinence meeting, held in City Hall yesterday afternoon. President Jos. B. Ayer presided over, the exercises, which were begun by the choir singing "Touch not the cup," followed by reading the Scriptures by Mrs. Wescott, of the Crusade, and prayer by Chaplain Edwin Kenney, of the club. Appropriate opening remarks were offered by Chairman Ayer, who was followed by Messrs. Glass, Walker, Barton, Williams, Richardson, Duren, Ames, Vice Presidents Wentworth and Hanover and ex-Presidents Page and Montgomery; Mrs. Palmer, of the Crusade, also renewed to the cause and Club her unreserved support and sympathy; Mrs. Prentiss read a tersely worded letter from Prof. Cyrus Hamlin, President of Middlebury (Vt.) College, to the temperance workers of Bangor, in which he expressed the belief that this city would yet be thoroughly freed of intemperance. Several young men added their names to the pledge.

Complimentary to a Bangor Florist. For the past three years Mr. Wm. H. Allen, of this city, has been in charge of the green house connected with the State Insane Asylum and numerous pleasant references to his labors have appeared, among which is the following, clipped from a recent copy of the Augusta *Journal*: "We have had the pleasure within a few days of visiting Mr. Allen's department at the Insane Asylum—the green-house—and are convinced that he is the right man in the right place. Although at the time of our visit the various plants had been robbed of their blossoms, for use in the chapel on Easter day, yet all the plants showed the good care which has been given them. Mr. Allen has under cultivation about four thousand verbenas in pots and boxes, pinks of all varieties, roses, geraniums, daises and even here a modest little dandelion had found its way among its more favored neighbors and was in full bloom. Of foliage plants, we find coleus, begonia rex and hundreds of other plants, the names of which were beyond our knowledge, awaiting the opening of the ground for their reception."

A New Firm. Notice is given elsewhere that Messrs. F. M. Blake, Geo. W. E. Barrows and Wm. E. Brown have formed a co-partnership to continue the business of banking and brokerage, general insurance, railway and steamship tickets at the old stand on Central street, under the firm name of Blake, Barrows & Brown. The senior member of the new firm, Mr. Blake, is too widely known among our business men, with whom he has had dealings for so many years, to need any words of introduction from us. Mr. Barrows, who for the past eleven years has been with Mr. Blake as cashier, is one of our most highly respected young men, and of course possesses a thorough knowledge of the business in all of its details. Mr. Brown, who is widely and favorably known in our city, where he has many friends, has been for nearly eighteen years connected with the fire, life and accident insurance business and for seven years agent of various lines of ocean steamships. The firm is a strong one and we wish them a full measure of success.

Exhibition Drill and Ball. A grand exhibition drill and ball will be held in Norombega Hall, one week from this evening, by the Jameson Guards, and the event promises to be one of notable interest which will doubtless fill Norombega with a large and pleasant party. Since Captain Maloney assumed command of the company a large number of new members have been taken in, increased interest has been manifested by all, and the Jamesons are now rapidly coming forward and making highly creditable improvement in drill. It has been a long time since our home company has been witnessed in an exhibition drill, and the marching, manual of arms, and especially the bayonet exercise, will be beheld with pleasure by our people. The ball, which will follow the drill, will doubtless be very enjoyable. The music for the occasion will be supplied by Andrews' full orchestra. Lieut. Col. Strickland will be floor director and he will be assisted by efficient aides. The drill will commence promptly at eight o'clock and the promenade concert will begin half an hour later. The price of floor tickets will be $1.00, and admission to the gallery 25 cents. The supper will be furnished at the American House. Members of the company, will, during the present week, call upon our citizens and it is to be hoped they will very generally respond by the purchase of tickets. The company is now hampered with a debt contracted before a large number of the present organization became members, and they have a commendable desire to liquidate this. Let our people respond with their characteristic liberality.

AMUSEMENTS.

Babylon.

Unity Hall was thronged to repletion on Saturday afternoon when Mrs. Woolson gave the third in her series of lectures on the four great empires of antiquity. The special subject on this occasion was "Babylon and Babylonian Themes" and it was treated in the masterly style and fascinating diction which characterize all the efforts of this talented lady. In Babylon she found bountiful themes with which to interest and instruct her audience and the address proved the most attractive thus far of the course. The next one will be given on Tuesday afternoon and will be upon "Persia and Persian Themes."

Whitmore & Clark's Minstrels.

The minstrel season for 1883 will open at the Opera House on Wednesday evening when the famous Whitmore & Clark Minstrels, very favorably remembered in our city, will visit Bangor and give one of their best entertainments. The sale of seats opens at the box office this morning and it would be advisable to secure tickets in good season. Of them the Burlington *Free Press and Times* says:

Whitmore and Clark's Minstrels attracted to the Opera House, Saturday evening, an audience of more than respectable numbers—and it would have filled the house had the weather been less severe. Everybody was evidently glad to see Hank White again and he was received with thunders of applause. John Adams, the other end man, matches up well with Hank and he made a decided hit with the audience. The Hennesseys and Delmannings were extremely good in their specialties and were received with great applause. Harry E. Whittier, better known here as John Whittaker, gave a fine solo on the trombone. The other members of the company did well.

Original Georgia Minstrels.

This company of genuine colored performers appear at the Opera House, Saturday evening, April 7. The company includes among its members Tom McIntosh, the well known colored performer who has not appeared in Bangor for some time, Jim Grace, Pete Devonear, Roger Haycraft and Harry Walker, all well known to Bangor audiences, and the pleasing tenor, Bunce Stanton, who will sing "Under the Pansies, made famous by Mad Willson, and Robert Thomas, baritone. The press speak highly of this gentleman's "Warrior Bold" and "Hundred Fathoms deep." They have also a select orchestra with Geo. Morris, the great saxophone player, among them.

Obituary.

Died in Howland, March 10th, 1883, Mrs. Lydia Emery, aged 79 years, widow of Deacon Joseph Emery. Mrs. Emery lived many years in Howland, loved and respected by all who knew her. She was a woman of real worth, a devoted wife and mother, a kind friend and neighbor, and a true and sincere Christian.

Possessed of good health and a cheerful, energetic temperament, she retained the vigor of youth in a remarkable degree until past the age of seventy. During the last four years of her life she had several paralytic attacks, from each of which she partially rallied, and resumed her place in the family circle, with failing powers but with the helpful, cheerful spirit still strong. On the morning of the day on which she died, she arose and dressed without assistance, and as she passed from her sleeping room into the sitting room of the family, the last and fatal stroke came upon her. Her daughters and other friends were called in, and the day was passed in anxious watching for some sign of returning consciousness.

But her life work was done, her last word spoken, and toward evening she passed quietly away to join the husband of her youth in the home of the blest. One son and three daughters, with their families, mourn for her, and their sorrow is shared by many to whom her deeds and words of kindness have brought relief in suffering, and cheer and comfort in time of sorrow.

DON'T STEP ON A ROLLING STONE!

That is what Captain Allen of the Fire Department of Worcester did, and that was how he hurt his ankle so badly. After the doctor set the broken bone, Captain Allen used Perry Davis' Pain Killer as a liniment. The suffering was soon over, and the Captain was well in a short time. Knowing the accidents to which firemen are constantly subject, Captain Allen advises everybody connected with a Fire Department to keep a bottle of Pain Killer always on hand. MWF

THE VERY BEST

Brown Old Government Pedang Java COFFEE.

We have been at work for some time trying to find the *best article* of O. G. Java coffee, and have had samples from a number of New York and Boston importers, which we have roasted and drank, and at last, after a great deal of care, we believe we have secured the best ever owned, and as good Pedang Coffee as was ever brought to Bangor. We have purchased of [illegible] lot

65 Pockets—4,335 Lbs.

And shall retail it at the following prices

Raw, 25 Cents per lb.
Roast, 30 Cents per lb.

No doubt you can buy Java Coffee as low or perhaps at lower prices than we offer this, but all we ask is to have you try a pound of ours and compare the quality with the low price Java. There are lots of Pale Javas being sold, that are not as good flavored as good Maracaibo Coffee. This O. G. Government Pedang Java of ours is nearly as good as lots of Mandehling Java (which are the best Java grown) now in the market. We roast all our Coffee ourselves at our mill, two or three times a week, and guarantee fresh roasted Coffee at all times, and warrant it to suit or it can be returned and the money will be refunded.

Try a Pound.

THE GROWING OF SWEET CORN.

At a recent meeting of the Middle Intervale Farmers' Club, in discussing this question, A. M. Carter said there was no question but what the value of an acre of sweet corn was much greater than from an acre of yellow corn. Of course the difference from the factory will vary the profits, although a few miles was of little account to be considered, as when we get loaded a mile or so is of little consequence. Corn is hauled ten or twelve miles and still pays a good profit. It is a safer crop to grow as there is seldom a year but sweet corn will be in condition to pick before any frost occurs to injure it, where many pieces of yellow corn is spoiled by the frost. It is not supposed, but some will fail in raising a paying crop of sweet corn, his land may be in a poor condition and with poor dressing and poor cultivation he fails as would be the case with any other crop. With sweet corn we know just what our crop amounts to; with yellow corn it is apt to be over-rated. He did not think that the average yield of yellow corn would over-run twenty-five bushels of shelled corn per acre in the town of Bethel, while the average price of sweet corn at the factory last year was not far from fifty. He said the farmers should have a man to look after the weighing and the company should make good any unnecessary waste before it was weighed. The first and most important point to be considered with the farmer in planting sweet corn is in procuring good seed, as many have failed in this point as in any other, too much poor seed is generally sold to the farmers, also the variety should be considered and a farmer should govern himself by his land upon which he is to plant, as some rank growing variety would not do well upon a poor soil, as there would not be strength enough in the soil to fill out a good crop where it might get a good growth of fodder, and promise well the first of the season. In regard to the best method of raising sweet corn, no particular way could be pointed out. Any method that will produce a good crop of yellow corn will produce a good crop of sweet corn. He considered for himself, and it was becoming a universal practice to spread the manure upon the surface and work it in with the soil, then use some commercial fertilizers to give it a start. Some were making it a practice to plant in drills which he considered would give better returns from the fact that four or five stalks are not crowded in together, but by standing apart it will give it a better chance to grow, and thought better ears could be procured and by adopting this method care should be taken and not plant too thickly. He thought when small we should not be liable to thin it out quite enough and considered it a bad practice to cultivate corn after it gets very large, as many roots would be broken and the crop injured by so doing. The cultivator should be used freely when the corn was small and the weeds kept back. He wished to say a word to the farmers in regard to picking, as his connection with the factory as "Field Agent" for two years, gave him a good opportunity to see at what stage of growth it was best to pick the corn. Farmers should not hurry to pick their corn before some of it gets a little too hard for canning, as the main part will not get in a good condition to can, and a loss is met in picking too green. After a farmer gets a little used to picking, the ears that are too far advanced to can should be left at home. The best would make good seed if allowed to get ripe enough, if not it can be fed out to stock.

RUBBER
BELTING.
Important to all who use Belting.
We have just patented a new article in Rubber Belting, which is sold under the name of
GIANT BELTING.
This Belting is made up with the usual plies of Duck and Rubber, and, before pulling on the outside cover, it is *STITCHED* in seams one inch apart, with cotton cord which has a pulling strength of fifty pounds. It is then *STRETCHED* in its plastic state, drawing the plies so close together, that, with the strong cord with which it is stitched, material strength is added to the belt, and the stitches are so drawn into the plastic rubber, that they cannot wear off the outside. The outside cover is then put on *SEAMLESS*, so that it cannot open, as is the case of Rubber Belting made in the ordinary way, and the plies being so firmly stitched, as well as frictioned together, that the belt cannot separate, as many belts made in the old way will, after being used for a time, especially when run at great speed or in damp places.
We particularly call the attention of all Mill owners to this Belt as being in the end the cheapest belt they can buy, while the first cost is only about ten per cent more than belting made in the ordinary way. We believe it will wear more than double the length of time. For heavy main belts you will find it superior to anything made. It is also superior for *ENDLESS BELTS*, as we stitch the splice in such a way that it *CANNOT SEPARATE.*
Try our Giant Belt. We will Warrant Satisfaction.

AYER'S Cherry Pectoral.
No other complaints are so insidious in their attack as those affecting the throat and lungs none so trifled with by the majority of sufferers. The ordinary cough or cold resulting perhaps from a trifling or unconscious exposure is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases and should be taken in all cases without delay.

A Terrible Cough Cured.
In 1857 I took a severe cold which affected my lungs. I had a terrible cough and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me. HORACE FAIRBROTHER.
Rockingham, Vt. July 15 1882

Croup.—A Mother's Tribute.
While in the country last winter my little boy three years old was taken ill with croup, it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,
MRS. EMMA GEDNEY."
159 West 128th St., New York, May 16, 1882.
I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRANE."
Lake Crystal, Minn., March 13, 1882
"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL.
JOSEPH WALDEN."
Byhalia, Miss., April 5, 1882.
"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. E. BRAGDON."
Palestine, Texas, April 22, 1882.
No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

LETTER CARRIERS.
All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.
Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the names put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.
Collections are made morning and evening in season for important mails.
Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.
Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.
No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window) when order enclosed is not less than 500.
A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State across the left end of the envelope, on the face side, will be complied with.
The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.
First class envelopes of above furnished at $22.20 per thousand.

Stamps cut from Stamped Envelopes
cannot be used to prepay postage. The use of such stamps is punishable by a fine of fifty dollars.
Stamped Envelopes, spoiled in directing, are redeemed at this office.

KIDNEY-WORT
HAS BEEN PROVED
The SUREST CURE for
KIDNEY DISEASES.
Does a lame back or disordered urine indicate that you are a victim? THEN DO NOT HESITATE, use Kidney Wort at once, (druggists recommend it) and it will speedily overcome the disease and restore healthy action.
Ladies. For complaints peculiar to your sex, such as pain and weaknesses, Kidney Wort is unsurpassed, as it will act promptly and safely.
Either Sex. Incontinence, retention of urine, brick dust or ropy deposits, and dull dragging pains, all speedily yield to its curative power.

KIDNEY-WORT
Acts at the Same Time on the Kidneys, Liver and Bowels.
I have *prescribed* Kidney Wort *with very great success* in a score or more obstinate cases of Kidney and Liver Troubles, also for female weaknesses.—Philip C. Ballou, M. D. Monkton, Vt.
"My wife has been *much benefitted* from the use of Kidney-Wort. She had kidney and other complaints," writes Rev. A. B. Coleman, Fayetteville, Tenn.

KIDNEY-WORT
IS A SURE CURE
for all diseases of the Kidneys and
— LIVER —
It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile and by keeping the bowels in free condition, effecting its regular discharge.
Malaria. If you are suffering from malaria have the chills, are bilious, dyspeptic or constipated Kidney-Wort will surely relieve and quickly cure.
In the Spring to cleanse the System every one should take a thorough course of it.

SCROFULA
and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.
To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.
A Recent Cure of Scrofulous Sores.
"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me. Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.
All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.
The well known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N. H.* writes, June 7, 1882.
"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."
Ayer's Sarsaparilla
stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.
It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

To the Hon. County Commissioners in and for the County of Penobscot.
The undersigned, citizens of said County, respectfully represent that the public necessity and common convenience requires that public highways should be laid out and established on both sides of the Penobscot River, in the towns of Bradley and Oldtown, in said County, from the landings of the Ferry across said river, established by the County Commissioners of said County, on petition of Henry Morgan and als., in 1844, to the records of which we hereby refer, to wit: from the present landing of said Ferry in the town of Bradley to the main street leading through the village of Bradley, over or near the way heretofore and now used by the patrons of said Ferry, and also from or near the present landing of said Ferry, in the town of Oldtown, to the river road, leading through Great Works, so called, in the most direct and convenient route.
And we therefore pray your Honorable Board, give notice required by law, and to view the said routes, and lay out and establish such highways. And thus in duty bound will ever pray.
Dated at Bradley, this ninth day of March, 1883.
(Signed,) JAMES A. RICE, and 10 others.

STATE OF MAINE.
PENOBSCOT ss. Court of County Commissioners, January Term, A. D. 1883.
Upon the foregoing petition, it is considered by the Commissioners that the petitioners are responsible, and that they ought to be heard touching the matter set forth in their petition, and therefore order, that the County Commissioners meet at the Depot at Great Works, in the town of Oldtown, in said County, on Thursday, the nineteenth (19th) day of April, A. D. 1883, at 10 o'clock in the forenoon, and thence proceed to view the routes mentioned in said petition, immediately after which view, a hearing of parties and witnesses will be had at some convenient place in the vicinity, and such further measures taken in the premises as the Commissioners shall judge proper. And it is further ordered, that notice of the time, place and purpose of the Commissioners' meeting aforesaid, be given to all persons and corporations interested, by serving attested copies of the petition and this order thereon, upon the Clerks of the towns of Oldtown and Bradley, in said County, and by posting up attested copies as aforesaid, in three public places in each of said towns, thirty days at least before the time appointed for such view, and also by publishing the petition and order thereon once a week three weeks successively in The Bangor Daily Whig and Courier, a newspaper published in Bangor, in said County, the first publication to be thirty days at least before the time of said view, that all persons and corporations interested may attend and be heard if they think fit.

HOME COMFORT.
After a Rainy Ride, a Country Physician Tells What He Thinks of Some People.
"I wish to gracious some people would learn when they need a doctor and when they don't," exclaimed Doctor E—, as he entered his house in a cosey little village in the interior of the State of New York, after a tedious night ride of many miles. "I have been down among the mountains to see a man, who the messenger said, was very sick and not likely to live till morning, unless he had immediate help, and found him suffering from a rather sharp attack of colic, which his family might have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no, they must remain ignorant as pigs, and when the least ache or pain takes them, send for a doctor, whether they ever pay him or not."
"Why, Doctor, what kind of simple remedies, as you call them, do you expect people to keep in the house?" asked his wife, as she poured him a cup of hot tea.
"In this case," answered the Doctor, "if they had only put on a BENSON'S CAPCINE POROUS PLASTER on the man's stomach, he would have been all right in an hour, and saved me a dreary ride."
In all ordinary complaints it cures at once. All diseases are eliminated from the system by what may be roughly called expulsion or extraction or by a union of the two processes. Benson's Plaster promotes both. It incites the torpid organs to act, and tends its healing, soothing, influence through the myriad pores of the skin. All other plasters oblige the patient to wait. They give him hope for to-morrow. Benson's plaster gives him help to-day. Which is better, do you think? Buy the CAPCINE and keep it in the house. Price 25 cents.

Something for Everybody.
Read, Mark and Inwardly Digest.
If you have nausea, want of appetite, flatulency, dizziness, feverish symptoms, you are suffering from costiveness, and Hop Bitters is the Sure Cure.
If your vital forces are depressed, if you have a feeling of general lassitude and weakness, are easily fatigued, perspire freely on going to sleep, are short of breath on every slight effort and have a general feeling of melancholy and depression, you are suffering from general debility and Hop Bitters removes it all.
If you have a sense of weight or fullness in the stomach, a changeable appetite, sometimes voracious, but generally feeble, a morbid craving, low spirits after a full meal, with severe pain for some time after eating, wind rising on the stomach, sour stomach, vomiting and fluttering at the pit of the stomach, and a soreness over it, nausea, headache, or some of these symptoms you are suffering from dyspepsia, and Hop Bitters will permanently cure you.
If you freeze one hour, burn the next, and sweat another, if you are suffering all the tortures of the Inquisition, one moment fearing you won't, and the next fearing you will die, if you have blue nails and lips, yellow eyes and ghost-like complexion, you are suffering from that miasmatic curse, Bilious, Malarial Fever, or Ague, and Hop Bitters will speedily cure you.
If you have a dry, harsh and yellow skin, a dull pain in the right side, extending to the shoulder blade and pit of the stomach, a tenderness over the region of the liver, a sense of tightness and uneasiness about the stomach and liver, yellowness of the eyes, bowels irregular, a hacking or dry cough, irregular appetite, shortness of breathing, feet and hands cold, tongue coated white, a disagreeable taste in the mouth, low spirits, blotches on the face and neck, palpitation of the heart, disturbed sleep, heartburn, lassitude—if you have any of these symptoms, you are suffering from Liver Complaint, and Hop Bitters only will cure you.
If you have a complaint which few understand and none will give you credit for—an enfeebled condition, a goneness throughout the whole system, twitching of the lower limbs, a desire to fly all to pieces, and a fear that you will, a steady loss of strength and health—any of these symptoms show that you are suffering from the hydra headed disease, nervousness, and Hop Bitters will effectually cure you.
If you have Bright's disease of the kidneys or any other disease of the kidneys or urinary organs, Hop Bitters is the only medicine on earth that will permanently cure you. Trust no other.
